

BIBURY

Personalidad y Sofisticación

Personalidad y Sofisticación son las características que definen a este Onice procedente de Oriente próximo.

La adaptación cerámica de esta piedra semipreciosa se traduce en un atractivo equilibrio visual entre el detallado encaje de su gráfica junto a una seductora gama de tonos alabastro, ámbar y madreperla.

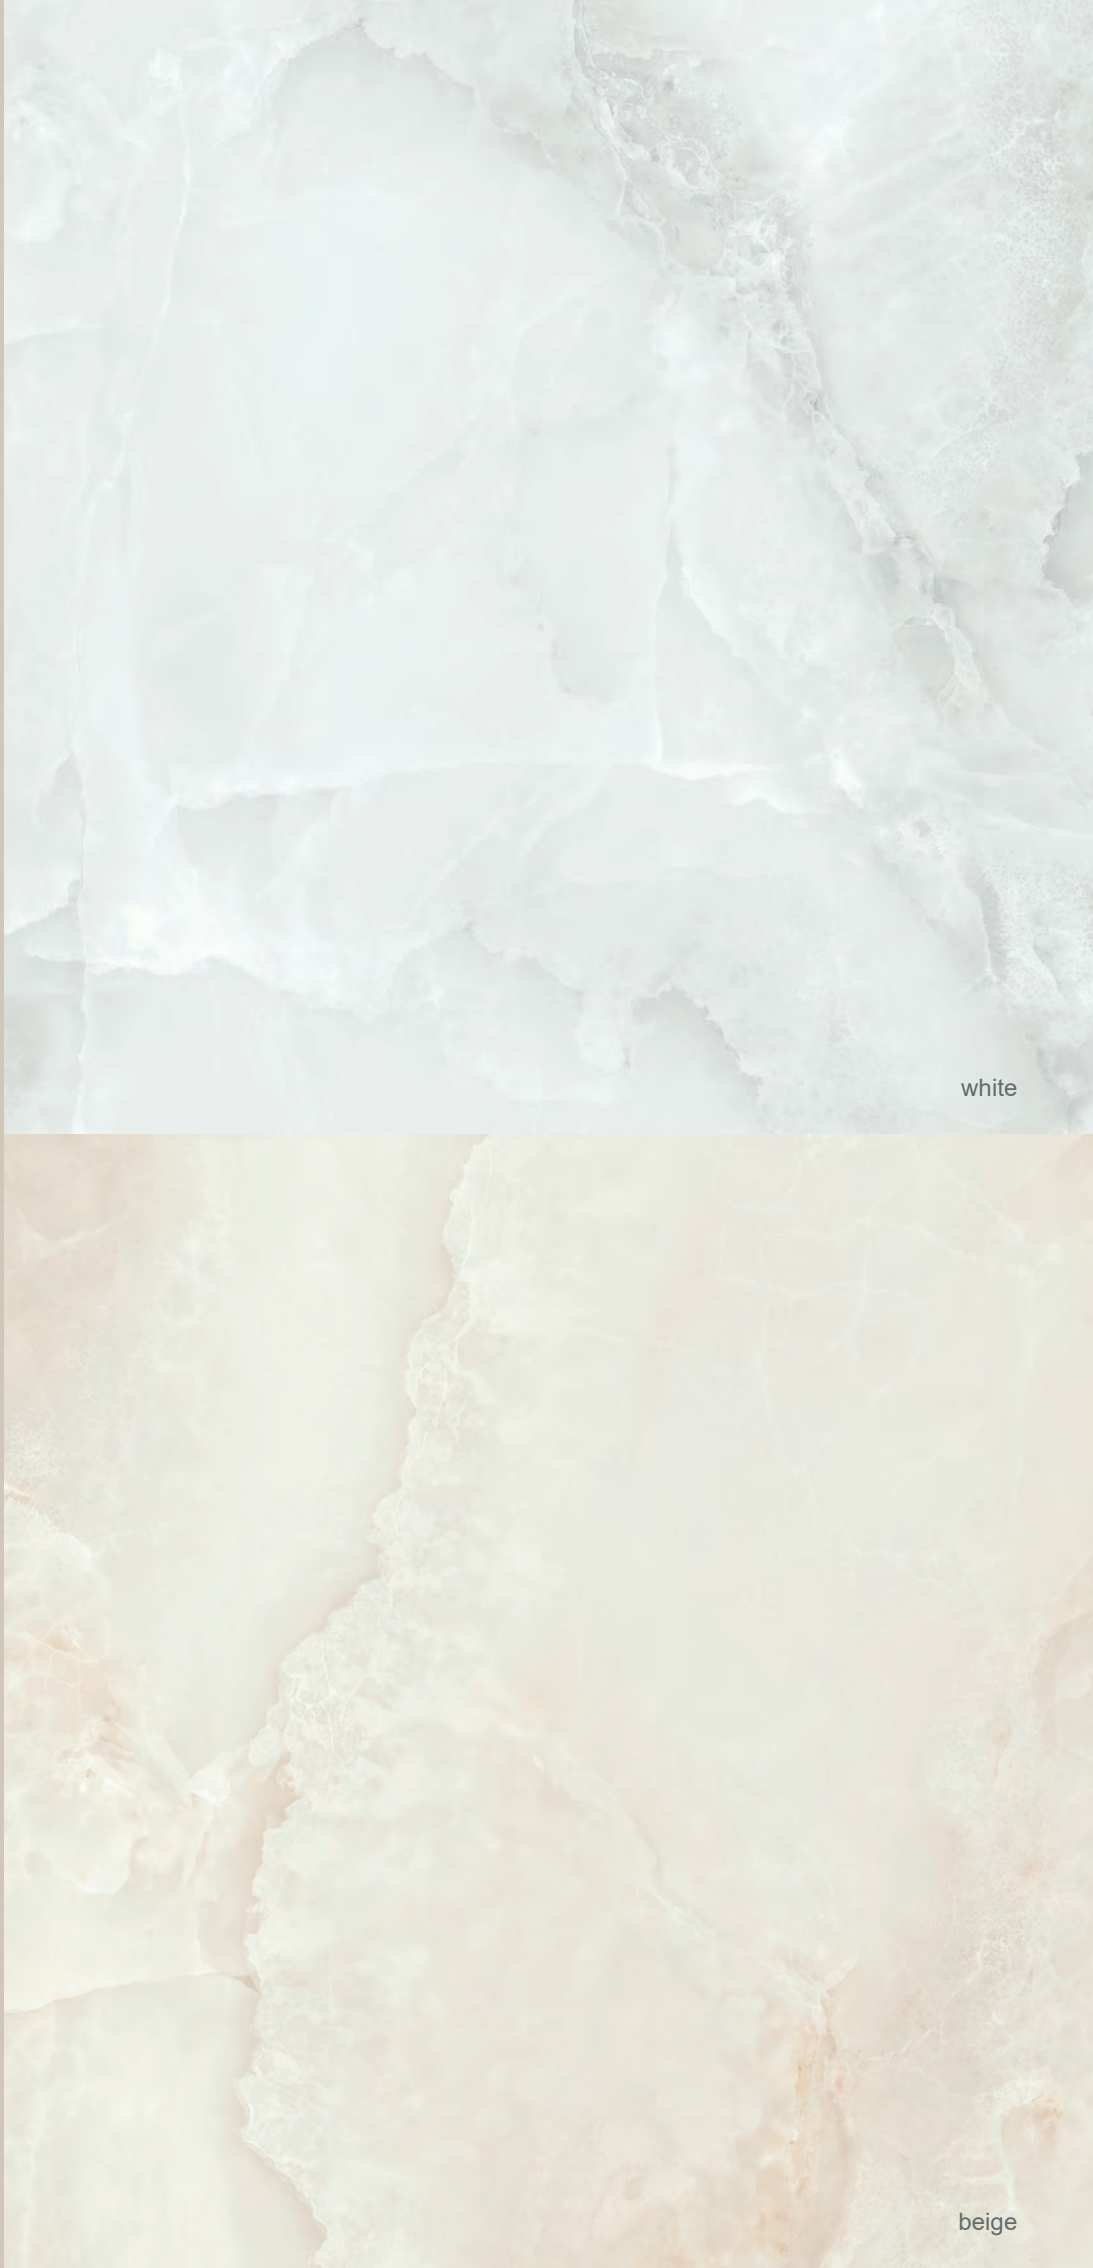

Personality and Chic Sophistication

Personality and chic sophistication are the main hallmarks of this series, inspired by onyx from the Near East.

In bringing the beauty of this semi-precious stone to ceramic tiles, a charming visual balance has been achieved between Bibury's detailed veins and its attractive selection of alabaster, amber or mother-of-pearl shades.
