# Legame

<sup>IT</sup> L'effetto pietra con richiami al cemento torna in scena attraverso nuove proposte ceramiche con spiccate vocazioni contemporanee, mentre le esposizioni universali hanno consacrato il ruolo del metallo come elemento fondamentale per la costruzione dell'architettura moderna. Le.game riunisce questi must architettonici in una serie dal gusto raffinato, ribadendo il legame che li ha caratterizzati. Presentata nei formati 100x100, 60x120 e 60x60 rettificati da la possibilità di creare ambienti con fughe sottilissime, che richiamano il mood irresistibile dei vecchi stabilimenti in disuso. La bivalenza della serie regala la possibilità di creare pavimenti e rivestimenti eleganti e dinamici. Le nuance di colore delle diverse materie e le proposte decorative concedono versatilità di progettazione.

<sup>EN</sup> The stone effect with references to concrete returns to the scene through new ceramic proposals with marked contemporary vocations, while the universal exhibitions have consecrated the role of metal as a fundamental element for the construction of modern architecture. Le.game brings together these architectural musts in one series with a refined taste, reaffirming the bond that has characterized them. Presented in the rectified 100x100, 60x120 and 60x60 formats, it gives the possibility of creating environments with very thin joints, which recall the irresistible mood of old disused factories. The bivalence of the series offers the possibility of creating elegant and dynamic floors and walls. The color nuances of the different materials and the decorative proposals grant design versatility.
