The small-format Alma collection features tiles that evoke the shapes of nature. Find out more on our website.

ALMA SCALE WHITE BRILLO 8X21,5

Alma

Tiles inspired by the shapes of nature

Alma metamorphoses into elements of nature, almost as if they were tree leaves or bird feathers. Its elongated format, pointed at one end and rounded at the other, as well as the reliefs that run through the piece, are proof of this. An innovative collection of cladding intended for projects with their own identity and designed to stand out with its gloss finish and its five shades.
