COSMOPOLITAN

COSMOPOLITAN nasce da uno studio approfondito sulle superfici industriali ed in particolare sulle capacità espressive dei cementi, reinterpretandone l'estetica brutalista in una veste inedita, calda e accogliente.
Nelle texture della gamma COSMOPOLITAN convivono la grana fine del calcestruzzo, le avvolgenti sensazioni delle terre e la natura mutevole degli agglomerati.
Le diverse superfici presenti all'interno del progetto sono pensate per convivere in armonia dando vita ad infinite soluzioni progettuali, nelle quali la materia si fa protagonista dello spazio.

QUIET, VIBRANT e MARK sono sviluppate in quattro tonalità sobrie e moderne presenti anche in una completa gamma di superfici antiscivolo per esterni o aree adibite al wellness.

COSMOPOLITAN is the result of an in-depth study of industrial surfaces, with particular emphasis on the expressive potential of cement, reinterpreting its Brutalist aesthetic in a fresh, warm, and welcoming style. The textures in the COSMOPOLITAN range combine the fine grain of concrete, the warm tactile qualities of earth and the varied nature of agglomerates. The different surfaces in the collection are designed to work together in harmony, creating endless design possibilities in which material takes centre stage.

QUIET, VIBRANT and MARK are offered in four understated, contemporary shades, also available in a complete range of slip-resistant surfaces for outdoor and wellness spaces.

GREIGE

COSMOPOLITAN MARK is a decorative structure that reproduces a three-dimensional sequence of markings, expanding the expressive possibilities for wall coverings.
The markings appear to have been impressed by hand into the surface of freshly laid cement.

COSMOPOLITAN MEETS KERAKOLL

KERAKOLL, brand noto nel mondo del design, si fa protagonista nel settore dei materiali decorativi con Kerakoll Colors, il progetto dedicato a interni ed esterni in 1.500 colori, con soluzioni integrate che uniscono estetica, funzionalità e sostenibilità. Per le immagini presenti in questo catalogo, FLAVIKER ha sviluppato una ricerca sugli abbinamenti tra le superfici COSMOPOLITAN e i prodotti KERAKOLL. In particolare, sono state coinvolte Color Fill, dedicata a stucchi e sigillanti per la decorazione delle fughe, Color Interior e Color Exterior, per la decorazione di interni ed esterni: tre gamme di Kerakoll Colors pensate per dialogare attraverso il colore. Questo studio ha l'obiettivo di coordinare ciascun colore della collezione con una tonalità tra pitture, stucchi e sigillanti per fughe, oppure di suggerire accostamenti a contrasto, offrendo un ventaglio di spunti per la progettazione.

KERAKOLL, a well-known brand in the design world, is making its mark in the decorative materials sector with Kerakoll Colors, a range of integrated solutions for interiors and exteriors available in 1,500 colours and combining aesthetics, functionality and sustainability. For the images featured in this catalogue, FLAVIKER explored a series of colour combinations pairing COSMOPOLITAN surfaces with KERAKOLL products. The study focused in particular on three Kerakoll Colors ranges designed to work together through colour: Color Fill, comprising grouts and sealants for decorative joints, and Color Interior and Color Exterior for interior and exterior decoration respectively. The aim was to coordinate each colour in the collection with a matching shade from the paint, grout and joint sealant ranges, while also proposing contrasting combinations and offering a wide variety of ideas for interior design.
