# Mud

On this occasion, prestigious designer Francisco Segarra has used mud as his source of inspiration, exploring its combined potential as both a building and decorative material. Mud's worn earthy, brown and white shades are a common feature of the interiors he designs, present on both the crockery and in the furniture and other ornamental items so typical of his vintage hallmark. The FS Mud collection stands out for its varying reliefs, shade variation and imperfections, infusing living spaces with a simple, natural, comfortable feel. It comes in a choice of four colours—sand, cocoa, white and silver—, elevating its brick format to new heights. Thanks to its blend of vintage/wabi-sabi charm, the collection brings warmth and beauty to settings. At a technical level, FS Mud features a wide variety of designs and reliefs, randomly combining 18 different brick shapes with 35 different 20x40 patterns. This leads to a wide diversity of brick designs.

La inspiración del prestigioso diseñador Francisco Segarra nos lleva en esta ocasión a explorar las posibilidades del barro como elemento situado entre lo constructivo y lo decorativo. Es un elemento común en los interiores que proyecta, pues los tonos tierra, marrones y blancos desgastados aparecen tanto en vajillas como en mobiliario y demás elementos ornamentales siempre presentes en su visión vintage. La colección FS Mud destaca por la irregularidad de sus distintos relieves, cambios de tono e imperfecciones que generan espacios naturales, simples y cómodos. Disponible en colores mud, cocoa, white y silver es una solución perfecta para llevar el formato brick a una nueva dimensión, donde la tendencia vintage y wabi sabi se encuentran para construir ambientes repletos de calidez.
